ATAG iSteel Cylinders

HIGH EFFICIENCY CYLINDERS

Just like our boilers, ATAG hot water cylinders are built to last. We use Duplex stainless steel which protects against corrosion. This means we can offer warranties of up to 25 years. Your ATAG Installer will help guide you to making the perfect choice that suits your needs.

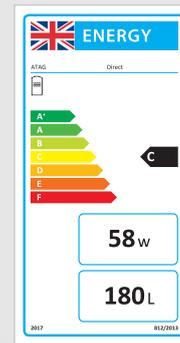

3 models available

Indirect
Single coil
with immersion heater

Indirect
Twin coil (solar)
with immersion heater

Direct
Immersion heater
only
