About ATAG

Founded in the Netherlands in 1948 with an engineering passion that still exists today, ATAG is trusted throughout the world by architects, design engineers, and homeowners alike to deliver unrivalled boiler build quality, reliability, and efficiency. From airports and commercial buildings to caring for homeowners, ATAG boilers deliver the lowest cost of ownership available today.

Had an ATAG boiler installed 14 months ago.

So glad we chose ATAG. We are saving money and have a warm home and lashings of hot water into the bargain.

Jane Talbot

First class boiler.

Quiet, efficient and love the controls from my phone so can change the settings before I get home.

D Harris

Had an ATAG boiler installed. Really happy with this boiler, very quiet and efficient and reasonably priced. And would recommend checking them out if you are considering buying a new boiler.

Keith Boughey

Now that I have had my new boiler for one year, I can report that this is the best most efficient boiler I have ever had.

First class on the fitting and the boiler. Also due to the way it's made it is quicker to service.

David Hobbs

The ATAG boiler is the best improvement we have made to our home. It's efficient, cost effective and saves money. The warranty is fabulous. The after-service contact is fab. Recommended by our plumber and we would definitely recommend ATAG to anyone.

K Jones

We have the iC Economiser. It was recommended to us by our service engineer of 20 years to replace our old boiler. It has been doing a great job for 9 months and we couldn't be happier with it. It seems nice and compact and the hot water in particular seems better to us compared with our previous two boilers from other well-known brands.

B Herring

The **reliable** and **responsible** choice for your home

Buying a new boiler is a considerable investment so you need to be sure it's going to operate reliably and efficiently for many years to come. That's why all ATAG boilers come with a 12 years warranty as standard and the option of an industry leading 18 years, currently 'best buy' with UK homeowners.

ATAG boilers have a great reputation for being reliable, economical to run and keeping your home warm and cosy.

By upgrading to an ATAG boiler, not only can you save money on your heating bills, but our industry leading warranties mean that if your boiler breaks down you won't have to pay a penny to get it fixed for up to 18 years.

We combine engineering excellence with superior materials to give you a boiler that's built to last and the most efficient in Europe. What's more, our boilers are designed to maintain their efficiency throughout their lifespan – meaning you will continue to save money year after year.

At ATAG, we take our environmental responsibilities very seriously. Our latest range of boilers minimise carbon emissions, have the lowest NOx levels available, are hydrogen blend ready and 95% of our boiler packaging is recyclable.

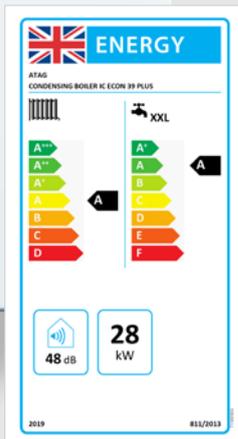

Your ATAG Installer will help guide you to making the perfect boiler choice that suits your needs.

WHICH BOILER
TYPE DO I NEED?

ATAG iC ECONOMISER PLUS BOILERS

— ULTIMATE EFFICIENCY — iC Economiser Plus Combination boilers

Our flagship range, the Economiser boiler, carries a built-in Passive Flue Gas Heat Recovery Device (PFGHRD) that recycles lost heat, further protecting the environment while helping you save even more on your annual gas bills.

Furthermore, it is the only boiler available that exceeds all the Government's Boiler Plus legal recommendations without having to purchase an expensive add-on.

Smart controls

for our most intelligent boiler yet.

ATAG iS SYSTEM BOILERS

iS System High efficiency boilers

System boilers are traditionally installed with an unvented hot water cylinder to provide greater hot water capacity.

This is particularly beneficial in homes with multiple bath or shower rooms. The fact that the in-built ErP pump and controls are contained within the boiler casing counts towards a simple and space saving solution.

Key features and benefits

ATAG SMART AND SIMPLE CONTROLS

ATAG One Zone Smart controller

For those homeowners who prefer technology, the One Zone offers a sleek design, internet connectivity, and an intuitive app-enabled smart controller. It provides unmatched efficiency, advanced monitoring, and intelligent diagnostics for your ATAG boiler.

ErP class VI, contribution to system energy efficiency 4%.

Key features and benefits

- ✓ Additional hot water priority pack available for system and regular boilers
- ✓ 5 years warranty as standard or warranty match of 12 or 18 years when ordered with your ATAG boiler
- ✓ Hardwired and easy to install
- ✓ Maximum fuel efficiency achieved
- ✓ eBus/intelligent modulation
- ✓ Works with Alexa, Google Assistant, and Apple HomeKit for convenient voice control and app management
- ✓ User friendly with clever timing options
- ✓ Intelligent features including geo-fencing, smart load and weather compensation
- ✓ Remote diagnostic solution for technical issues
- ✓ 'AutoAlert' error reporting
- ✓ Anti-cycling technology
- ✓ Up to 6 separate zones with additional ATAG zoning options

Tado° Wireless Smart thermostat

Take control of your heating with the Tado Wireless Smart Thermostat. Designed for comfort and efficiency, it adapts to your lifestyle with Smart Schedules, Geofencing, and Open Window Detection. Compatible with Alexa and Google Assistant, it helps reduce energy consumption while keeping your home at the perfect temperature.

ErP class VI, contribution to system energy efficiency 4%.

Key features and benefits

- ✓ 5 years warranty as standard or warranty match of 12 or 18 years when ordered with your ATAG boiler
- ✓ Customises heating schedules and adjusts temperature based on your location
- ✓ Provides insights into energy consumption, helping you reduce bills and environmental impact
- ✓ Works with Alexa, Google Assistant, and Apple HomeKit for convenient voice control and app management
- ✓ OpenTherm compatible
- ✓ Alerts you to potential heating issues, allowing for proactive maintenance and reducing breakdowns
- ✓ Automatically adjusts to your routine and environmental changes, ensuring a consistently comfortable home

ATAG Programmable Room Thermostat

For homeowners who prefer simplicity, the ATAG Programmable Room Thermostat offers intelligent features to keep your ATAG boiler running at peak efficiency—all without internet connectivity.

ErP class IV, contribution to system energy efficiency 2%.

Key features and benefits

- ✓ Additional hot water priority pack available for system and regular boilers
- ✓ 5 years warranty as standard or warranty match of 12 or 18 years when ordered with your ATAG boiler
- ✓ Wireless connection via receivers
- ✓ Easy to install with pre-paired components
- ✓ Maximum fuel efficiency achieved
- ✓ Simple to use with clever timing options
- ✓ OpenTherm and on/off switching
- ✓ Intelligent features including holiday mode protection
- ✓ Anti-cycling technology
- ✓ Can operate up to 6 separate heating zones with additional accessories

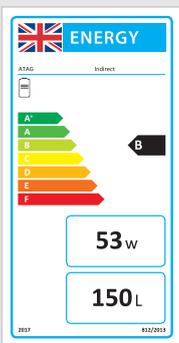

HIGH EFFICIENCY CYLINDERS

ATAG iSteel Unvented Cylinders

Just like our boilers, ATAG hot water cylinders are built to last. We use Duplex stainless steel which protects against corrosion. This means we can offer warranties of up to 25 years. Your ATAG Installer will help guide you to making the perfect choice that suits your needs.
